Secured with compound wall.....

A long pending need of constructing a compound wall around the main campus was delayed due to lack of funds. The old fence was damaged and paved way for stray animals' and strangers' entry. Availing a loan from the bank, the project was completed in October 2014. This project was given priority considering the safety of the children and also required by the Juvenile Justice Act of the state of Tamil Nadu. Also, to promote greener environment more trees were planted by the staff and children inside the campus.
