When the children reach the age of 18, normally they cease to receive sponsorship money but we continue to support their higher education which includes Professional, Vocational or Technical courses. We are in a difficult situation here as these courses are expensive. For this reason, we have created a scholarship endowment fund for higher education to help us meet these expenses.

Higher Education

Six children were enrolled in professional training courses. They study in residential Institutions.

We thank the sponsors who help us meet the basic needs of the children for their holistic development and the donors who contribute towards higher educational expenses. We earnestly seek your prayers and support in building up the Higher Education.
